IN THE SPECIFICATION

Applicant has included a substitute specification with both a clean version (in Appendix A) and a marked up version (in Appendix B), as set forth in 37 C.F.R. 1.125. The specification has been amended to remove the name of the inventor after the title in the specification and Abstract, re-number the paragraphs starting at [0001], correct the typographical errors pointed out by the Examiner, change the description in Fig. 3 by adding descriptions to Fig. 3A and Fig. 3B in response to the Examiner's objection to Fig. 3, and change occurrences of "motor fan" to "generator fan". No new matter is added. It is noted that no changes were made to the claims, as claim amendments will be addressed separately.
